**The Project Support Team**  
**Informatique furr Afrika**  
**c/o Mrs. Rosina Hug**

### Letter of Appreciation for additional support

On behalf of the Executive Board, management and communities served, CCREAD-Cameroon wishes to sincerely thank INFA for extending an additional hand of support for our ongoing ICT training project in Buea.

The management is very pleased for the support of 500 Euros granted and for the replacement of old keyboards and mouse with 10 new keyboards and 10 computers Mouse. This will continue to put the training unit functional and permit the training of many more Cameroonian youths

So far, we have trained a total of 6,235 students and pupils, 312 youths and 135 women and teenage girls at the INFA ICT supported training unit. The additional support and more to come will continue to boost our ability to train many more students, women and youths.

Once more accept our kind wishes and rest assured that we will do our best for a successful project.
