**Subject: Appreciation Letter from Goodness and Mercy Missions to
Informatik-Afrika, Switzerland**

Dear Rosina Hug,

This is an appreciation letter from the Goodness and Mercy Missions team in Belo, Cameroon. We are so grateful for the four laptops you donated to the GMM Computer School in Belo. It has helped the students to not overcrowd on top of one computer as was the case before. It will help us reach out to the training of more men and women thus providing job skills, and also help the children acquire computer skills which will help them in school and other related programs. Please, tell your team that Goodness and Mercy Missions is so delighted. We also admire the high quality of the laptops. We promise to keep updating you about the progress and development of the trainings.

We would also like to thank you for the work you are doing in other parts of Cameroon. It is really a great impact.

Greet the rest of your team.

Ten Francis Y.

**Director, Goodness and Mercy Missions
GMM**
