SOUTH WEST REGION,
CAMEROON.

27-04-2018

Through
The Development Secretary, P.C.C.

To,

ROSINA HUG
Informatik FÜR Afrika,

Dear Madam,

Bi – Annual Report on computer laboratory.

Accept post Easter greetings from the staff and students of P.C.H.S Limbe. We write to intimate you and your organization of the state, usability and beneficiaries of the computers at the time of reporting.

The State of the Computers.

The 20 brand new computers and 5 UPS which have been of great help to the facilitators and learners are well taken care of. We are glad to inform you that all the 20 computer systems and the 5 UPS are still in good state. We ensure that the computers are shut down properly and covered as instructed. The temporary window covers have been replaced with permanent shutters to prevent them from damages. Our fervent wish is to continue to guard this precious gift jealously.

Usability of the Computers

Concerning their usability, the children are given opportunity to their usage as regular as possible. Classes take their turns as per the timetable, guided by their instructors to acquire knowledge and skills. Summarily stated, the lab is being used on a daily basis, especially the students of the examination classes who are preparing to write the national exams; Cameroon General Certificate Exams (CGCE). The students have been properly prepared thanks to the availability of these computers.

Office Practice GCE Practical, May 8 2018 (Staff Room chairs in use)

Beneficiaries of the Computers

Here the students are the first beneficiaries amongst others. It goes without saying that the parents are indirectly benefiting from this venture. In addition, the school in particular and the Presbyterian Church in Cameroon as a whole are equally benefactors. It is so exciting to know that the government has sent some schools to join our children for practical because of its befitting nature. Thus, the entire nation is not left out. During an annual general meeting of parents and teachers which held on the 28th of April 2018, the parents were amazed at what they saw during their visit to the computer lab.

Other needs

We are very much appreciative of what you have done to us. That notwithstanding, we would wish to solicit other pressing needs of the school as indicated below:

- A Video projector for the facilitation of teaching and learning
- Colour laser printers and accessories for the lab and offices
- A giant colour photocopier for the running of exams (The present one is bad)
- Lab tops for administrative staff.
- Internet Air box router for the computer lab
- Paper knife and a combined punch binding machine for the facilitation of administrative duties.
- Chairs for the lab

May God continue to richly bless you and your organization for extending your hand to the needy.
