17<sup>th</sup> September,2017

Dear R. Hug,

### A LETTER OF APPRECIATION

With great pleasure and respect, we the teachers, pupils and the school Board of Government Bilingual Primary School (GBPS) Niété V7 West immensely thank you and your organization (Informatik-Africa) for your assistance to us through Mr Ayambod Moses. These computers (05 Laptops) will greatly help us to practically feel and work with computers, especially the less privileged children who have hardly seen one before. They will greatly make our teaching-learning process more practical and concrete.

With these workstations, our pupils will easily integrate the digital world without a complex thanks to you.

Once more, on behalf of the school Board, I express my profound gratitude to you and this God-sent project and like Oliver twist, I will not hesitate to request for more, and considering the number of pupils per workstation (desktops will be preferable). The one offered to us last year on provisional basis improved our pupils' success rate during the 2016/2017 end of course examination.

We pray and hope this will meet you in very good condition. Stay blessed. Accept our highest regards.

Tagyen Philemon Fomunyam

Head Master G.B.P.S Niété V7 West
