Dear Mrs. Rosina Hug

**End of Year ESARDEF Vocational Training Center Project Report (July – December, 2020)
Limbe, Cameroon.**

Training in the last 6 months has been very effective with stringent COVID 19 protective measures. The graduation of the trainees which was prior scheduled for July, 2020 was postponed to September, 2020 where we graduated 56 trainees (more of IDPs) and all handed End of Course Certificate, urging them to go used the acquired skills for the betterment of their livelihoods and community development.

Graduation day

We admitted another set of trainees in September, 2020, 35 of them (more of IDPs) are currently being trained at the training center after undergoing an orientation. Hopefully, they will graduate in March 2021 for another set to be admitted.

OUR CURRENT NEEDS

ESARDEF also want to acknowledged the last donation of furniture that Informatik für Afrika made available to us in the month of September, 2020, that brought relief to us at the training center. However, we still have some needs to be met for a smooth running of the center for next year (2021). They are;

1. Rents for next year. This support will be of great relief us next year.
2. We are still in need of a printer and scanner for the computer lab and office use.
3. Stipend to motivate the volunteering trainers.

Thank you for being part of our mission in reaching out to the underprivileged with skill building education in the forest and coastal regions in Cameroon. Should you have any question, do not hesitate to contact us.

Sincerely Yours,

Etang S M Mbeng, M.Ed.
Founder & Executive Director,
